*Responsible Alpha is a B Corp certified, sustainability consultancy specializing in sustainable finance and transition strategies, merging 180 years of global experience with local expertise. We have deep experience empowering all organizations to transition to a net positive economy by 2050.*

## MARKET RESEARCH & INTELLIGENCE

Empower your organization to make informed sustainability decisions. Responsible Alpha assesses markets, conducts research, and analyzes sustainability, climate, and ESG risks to help mitigate risk, ensure compliance, and drive measurable results. Our process helps you confidently promote sustainability and achieve measurable results.

## OUR WORK IN ACTION

Responsible Alpha partnered with D.A.T.A. to assess corporate ESG commitments, ensuring transparency and accountability in sustainability disclosures. By combining D.A.T.A.'s deception-revealing technology with our integrated data framework, we analyzed greenwashing risks and identified discrepancies in corporate filings. Our collaboration uncovered misleading statements in New Fortress Energy's ESG disclosures, reinforcing the need for enhanced scrutiny in sustainability reporting. Through data-driven insights, we empower businesses and stakeholders to uphold integrity in the evolving ESG landscape.
