

Responsible Alpha is a minority-owned EU-North American based B corp “public benefit corporation” whose team has over 200 years’ direct global sustainability consulting experience in their careers deploying billions in sustainable capital. Responsible Alpha is proudly owned by its staff, advisors, and board members.

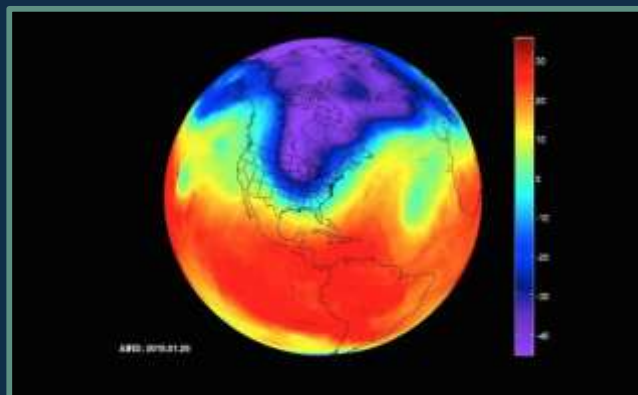

MARKET RESEARCH & INTELLIGENCE

Responsible Alpha assesses markets, conducts research, and analyzes sustainability, climate, and ESG risks to help mitigate risk, ensure compliance, and drive measurable results. Our process enables organizations to confidently navigate sustainability challenges, integrate best practices, and align with evolving regulatory landscapes.

CLIMATE RISK MODELLING

Responsible Alpha uses technical scientific methods to measure the physical and transitions risks from climate change for organizations. These models can analyze factors like temperature change, extreme weather events, sea-level rise, and their subsequent impacts on infrastructure, industries, ecosystems, communities and financial performance.

NATURE FINANCE

Nature provides \$125 trillion annually in ecosystem services yet faces a \$4.1 trillion financing gap by 2050. Our integrated Assess > Build > Cultivate methodology transform nature challenges into investment opportunities through conservation finance design, blended finance mechanisms, payment for ecosystem services frameworks, and impact measurement systems.

TRUSTED BY

Responsible Alpha partners with all organizations on their transition to a net positive economy by 2050
