

*Responsible Alpha is a minority-owned EU-North American based B corp “public benefit corporation” whose team has over 200 years' direct global sustainability consulting experience in their careers deploying billions in sustainable capital. Responsible Alpha is proudly owned by its staff, advisors, and board members.*

## GREEN FINANCE & BONDS

Secure sustainable financing with expert support. Responsible Alpha provides specialized technical services that guide issuers, multilaterals, corporates, and investors in the issuance and investment of green and thematic bonds and loans. . Our strategies focus on unlocking financing opportunities while delivering investments that deliver a measurable impact.

## SUCCESSES

- **Development Bank Green Bond Transparency Platform:** Partnered with an IFI to enhance global reach of their pioneering Green Bond Transparency Platform through comprehensive green bond analysis and expert content curation. Conducted in-depth examination of green bond structures, performance, and impact using our integrated data framework, while curating academic and industry expert papers to translate complex technical details into accessible materials.
- **GSIB Bank Net-Zero Climate Finance Training:** Developed a comprehensive program for a large global bank's senior leadership across 15 plus emerging markets in sub-Saharan Africa and Asia, focusing on climate science, policy frameworks, and GhG emissions calculations. Our multi-year engagement equipped the bank to become an industry leader in sustainable finance.
- **Net-Zero Course Development:** Created a comprehensive course on net zero emissions fundamentals covering fixed income scenario calculations, regulatory frameworks, and stakeholder engagement strategies. The program's materials equipped leaders from Bank of America, Truist, Morgan Stanley, IBM, ING, UBS, and others with the skills to integrate net-zero considerations into financing strategies.
- **Green Bond Market Investor Sentiment Analysis:** Conducted comprehensive analysis of investor sentiment towards green bond markets in Latin America and the Caribbean, examining market dynamics, regulatory frameworks, and investment appetite. Our research provided critical insights linking Sustainable Development Goals (SDGs) and Nationally Determined Contributions (NDCs) to investment decision-making, informing multilateral development bank strategies for green finance expansion.
- **Agriculture Supply Chain Adaptation Facility Design:** Co-designed a winning proposal for Global Innovation Lab for Climate Finance with innovative risk management tools and investment fund structure to fund climate-resilient agriculture supply chains.
