

Responsible Alpha is a minority-owned EU-North American based B corp “public benefit corporation” whose team has over 200 years' direct global sustainability consulting experience in their careers deploying billions in sustainable capital. Responsible Alpha is proudly owned by its staff, advisors, and board members.

CAPACITY BUILDING

Prepare your team to lead the sustainability transition. Responsible Alpha's services include comprehensive capacity-building initiatives designed to equip your team with the knowledge, skills, and tools necessary to drive sustainable transformation when we are not around. Our hands-on approach ensures your team has the skills and tools to drive impactful changes.

SUCCESSES

- **Investment Conference Leadership:** Supported 25 global sustainable investment conferences through conference moderation, sponsorship, organizational support, and expert panel design on transition finance for the energy sector and nature. Our contributions facilitated industry dialogue among professional members, institutional investors, and asset owners, positioning the conferences as premier forums for sustainable investment education and strengthening the investment community's capacity to integrate sustainability into decision-making processes.
- **GSIB Bank Net-Zero Climate Finance Training:** Developed comprehensive program for a large global bank's senior leadership across 15 plus emerging markets in Africa and Asia, focusing on climate science, policy frameworks, and GhG emissions. Our multi-year engagement trained 50 executives with hands-on experience to position the bank as industry leaders in sustainable finance.
- **Net-Zero Course Development:** Created a comprehensive course on net zero emissions fundamentals covering fixed income scenario calculations, regulatory frameworks, and stakeholder engagement strategies. The program's materials equipped leaders from Bank of America, Truist, Morgan Stanley, IBM, ING, UBS, and others with the skills to integrate net-zero considerations into financing strategies.
- **Corporate Global Petrochemical Supply Chain Training:** Developed mandatory training materials for a corporation's 180,000 global employees to understand the petrochemical-plastics-waste supply chain and its ESG, SDG, and climate risk implications. Our comprehensive initiative fostered shared understanding across the organization, enabling employees to drive efficiencies and reduce single-use plastics packaging waste while aligning with unified sustainability objectives.
- **International Development Finance Training:** Designed and delivered training programs on Nature-based Solutions, conservation finance, and ESG integration for a global IFI. Our capacity-building initiatives equipped development finance professionals with practical tools and frameworks to integrate environmental and social considerations into project design, implementation, and monitoring.
